6. Description:

Due to the Covid-19 pandemic, the school education has been moved to online learning. But sadly many families across Sri Lanka, especially in places where they don't have access to smartphones - as they have no income to buy such luxury - are facing difficulties in their children's education. Some of them borrow phones from their neighbors paying Rs.200.00 for an hour of usage and many children have given up on their education. As the pandemic situation continues and we have no set date of when things will be normal, these children are in dire need of a smartphone for them to continue their education. Thus, as the first phase of this project, we have selected 50 children who are in desperate need of a smartphone that are sitting for their G.C.E Ordinary Level this year.
