

.....

Provide 1000
Litre Water Tanks To
2 Schools

.....

R E P O R T

PROJECT BACKGROUND

Several islands in Jaffna were disconnected from the mainland area due to the ethnic war that prevailed for the last few decades. It has left families displaced, with some members being abducted or killed, with others moving out of their homes to other areas to maintain a livelihood. While these areas are being developed, a lot of work remains to be done for the residents of the islands. Clean water is one of the basic requirements that are yet to be met. A difficulty in sourcing clean water led to many children being affected by water related illnesses, most commonly urinary infections and coronary diseases.

RESULT

With your heartfelt donations, we raised enough funds to provide two schools, Punguduthivu Kamalampikai MV and Pun Thuraismy MV, with a 1000 litre water tank each in an effort to provide clean drinking water to the children of these schools. With the help of The Rotary club of Nallur, the tanks were sent and set up in the schools. Three club members visited the schools and held a discussion on the importance of clean water and were able to take some photos with clearly delighted students of the school.

EACH
YEAR 443
MILLION
SCHOOL DAYS
ARE LOST DUE
TO LACK OF
CLEAN WATER AND
SANITATION. OUR
SINCEREST THANK YOU
FOR MAKING A
DIFFERENCE; IT WILL
GO A LONG WAY FOR
YOUR STUDENTS.
